Registration of the participants - 20 teachers of secondary schools and technical colleges

Welcome Speech

This publication has been produced with the financial assistance of the European Union. The contents of this publication are the sole responsibility of MAMA-86-Nova Kakhovka and can in no way be taken to reflect the views of the European Union.
Presentation of the partners of the project “Cleaner Rivers - Cleaner Seas”; the project objectives and scope;

Presentation of the unique technology for the production of fertilizers by Ivan Burakov, an agronomist;

Characteristics of the equipment that will be used during the project implementation.

This publication has been produced with the financial assistance of the European Union. The contents of this publication are the sole responsibility of MAMA-86-Nova Kakhovka and can in no way be taken to reflect the views of the European Union.
Group 1
Suggest an algorithm of actions if you find pollution of the coastal zone.
Pollutants: glass, rubber, plastic, organic waste, batteries.

Group 2.
The private estate is located on the river bank.
Give advice to the owner on how to solve the problem of sewage for his individual household.

Group 3.
A pipeline that collects wastewater goes to the river bank. Oil products (nearby there is a parking), products of human life, pesticides get into the river.
What actions do you take? What cleaning methods do you suggest?

Group 4.
The river bank is contaminated with waste: leaves, remnants of dry vegetation and branches.
Your suggestions for cleaning up the territory?
